

# THE FAIRY PLAYHOUSE

BY FRANCES W. DELEHANTY

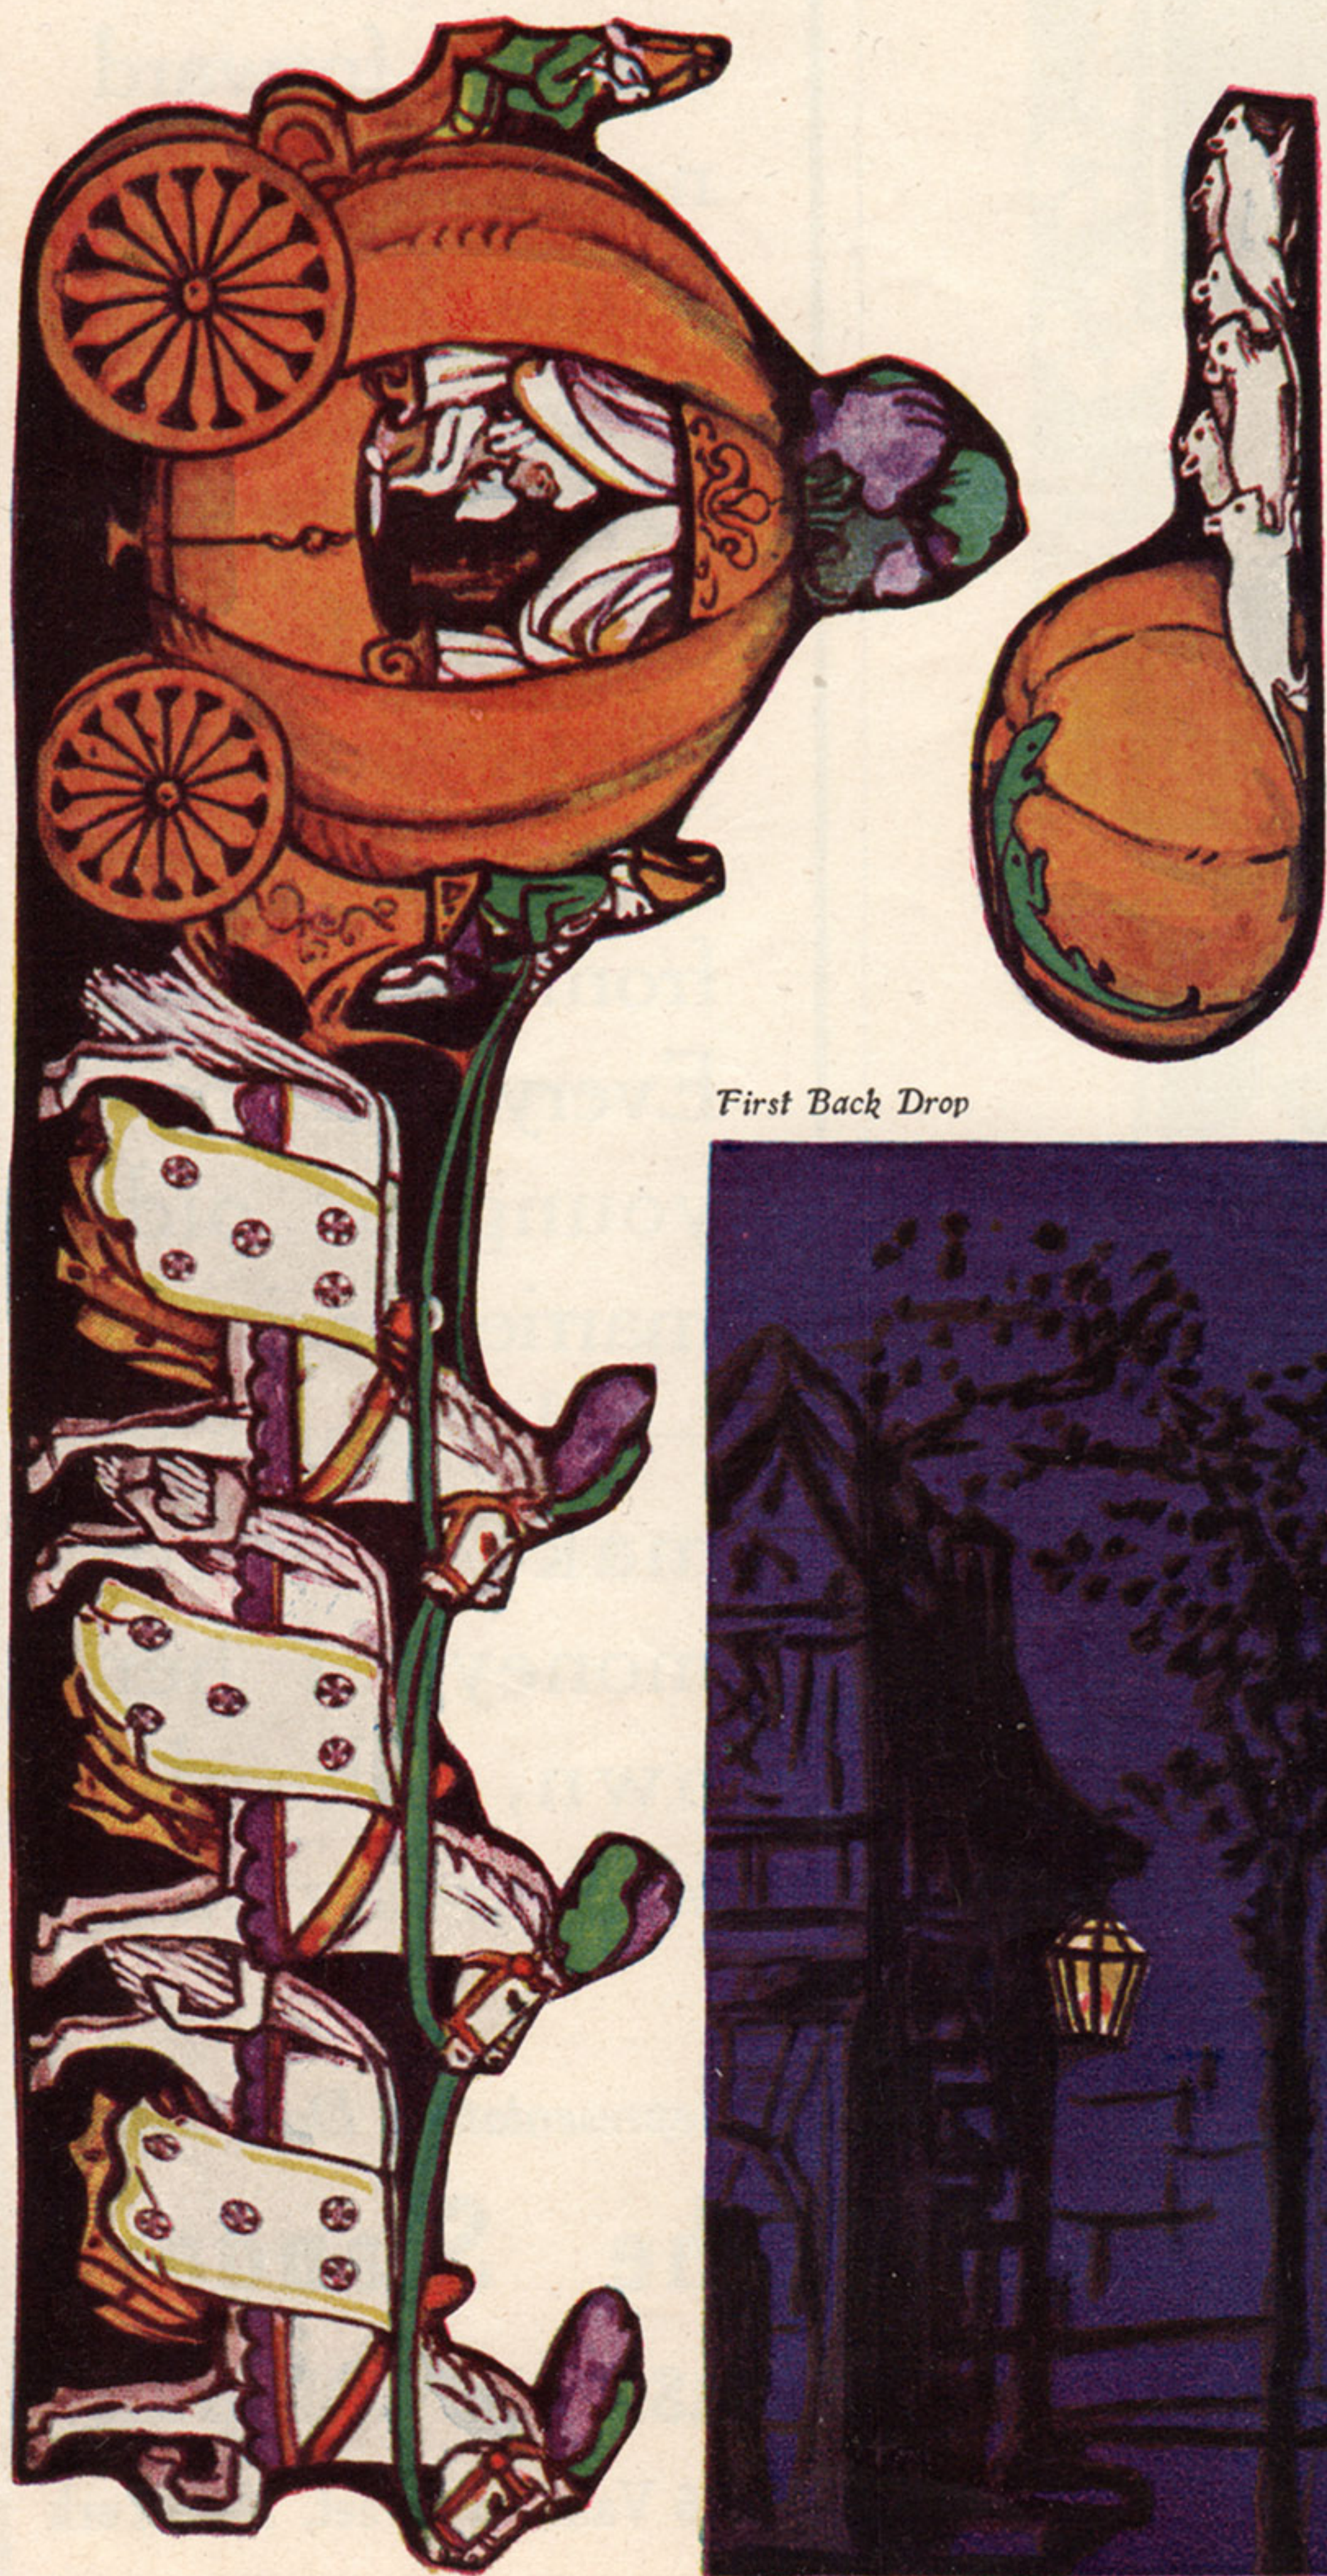

*Proscenium Arch*

## *Directions for Making the Fairy Playhouse*

TAKE a cardboard box measuring 6 x 8 inches and 3 inches deep; stand this on its edge for the stage. Cut out the First Back Drop and the Second Back Drop, and paste on stiff paper, leaving the flaps to fold back and under as shown in the diagram. Set up the bottom of the box and in it place the Second Back Drop so it will come right behind the opening of the door. Set the First Back Drop in front of this, leaving space for the pumpkin coach to pass through. Cut out the Proscenium Arch, paste it on the box cover and cut out the opening. Then set it up, leaving space for the figures to be drawn across. Cut out the figures, paste them on stiff paper with a straight narrow strip 4 or 5 inches long above their heads to move them about. The coach must have a horizontal strip from each end.
